NO. 28

The Dangerous Fly.

Seven different varieties of flies are found in our houses, 98 per cent of which are represented by the common house fly. Flies lay their eggs only in fermenting or decaying substances by preference in horse manure. Hence every stable is a center of infection unless periodically disinfected. The fly maggot is also hatched out in latrines and ash pit refuse, such as bedding, straw, rags, paper, scraps of meat, fruit, &c., on which substance the larvae subsist after they hatch, which occurs in about 12 days after the egg has been laid. It is estimated that a single fly, laying 120 eggs at a time, will produce a progeny amounting to sextillions by the end of the season.

The numbers of bacteria upon a single fly have been proven to range all the way from 550 to 6,600,000. The average for 414 flies which were examined at the Agricultural Experiment Station at Storrs, Connecticut, last year was 1,250,000 bacteria apiece. This represents about the number of bacteria that enter the human system when one swallows a glass of liquid into which some fly has perhaps fallen, to be removed by a slovenly waiter without the liquid being thrown away.

This Sale Continues.

The hot weather sale at Mrs. Williams is providing a general public benefit sale. Many dollars are being saved by the buying public who are visiting this store during these hot days. If you are not one of the satisfied customers you should be.

R. L. Daniel bought of Charlie Welch a nice bunch of sheep.

The Value of a Counterfeit Bill.

A Kansas paper offers this as "something to figure on." A banker going home to dinner saw a \$10 bill on the curbstone. He picked it up, noted the number and went home to dinner. While at home his wife remarked that the butcher had sent a bill amounting to \$10. The only money he had was the bill he had found, which he gave to her and she paid the butcher. The butcher paid it to a farmer for a calf, the farmer to the merchant who in turn paid it to the washerwoman, and she, owing the banker a note of \$10, went to the bank and paid the note. The banker recognized the bill as the one he had found, and which to that time had paid \$50 worth of debt. On careful examination he discovered that the bill was counterfeit. Now what was lost in the transaction, and by whom?

Corn on the hill lands over the county never looked better and we will have a bumper corn crop if the rain continues, even though much of the bottom land has already been drowned out. The loss to corn on wet lands will be more than overbalanced by the increase on hill lands.

It takes a rich man to draw a check, a pretty girl to draw attention, a horse to draw a cart, a porous plaster to draw the skin, a toper to draw a cork, a free lunch to draw a crowd and an advertisement in your home paper to draw trade. Send in your ad. for the drawing.

The hot prices at the hot weather sale at Mrs. Williams' are making the goods move fast. If you are not getting your share of the bargains, it is your own fault.

The Real Problem.

The real problem before the people of Kentucky is an improvement of our citizenship. This can only be done through better schools and more churches.

We have taken relatively too much interest in matters of national concern, such as the tariff, trusts and etc., and too little interest in matters of home concern such as good schools, good roads and the enforcement of our laws which really are of vital concern and touch every citizen.

The most important questions before the people of Kentucky today are the enforcement of the laws, the betterment of the schools, the improvement of the roads and the change in our system of taxation. These questions are of much more immediate concern to the citizens of Kentucky than any questions relating to the tariff, to the national banking laws or the trusts.

Kentucky can live under any tariff under which any other state can prosper; Kentucky can conduct her business with any banking system under which any other state can conduct its business; Kentuckians can exist and make a living under any system of trusts or aggregation of capital, no matter how much they may rob, under the domination of which the citizens of other states can earn a living. But Kentucky must enforce its own laws, improve its own school system, build its own roads, create its own tax laws, and they are the questions which are the most vital to Kentucky's prosperity and growth. — From Bulletin Kentucky Dept. of Education.

How to be Happy.

In a recent lecture to a Cleveland, Ohio Sunday school class, John D. Rockefeller in telling them how to be happy, is quoted as saying, "We should all be happy. We need to know how to keep all the good and forget the wrong." It is evident to all thinking people that Rockefeller has been misquoted. What he said or undoubtedly meant to say was that, "we need to know how to keep the goods and force the other fellow to forget the wrongs."

Negro Excursion.

A negro excursion of sixteen coaches will run from Lexington to Clay City today. An excursion of this kind was run here last year. The colored people then behaved nicely and it is expected that they will do the same this time.

The wet weather is causing the farmers to have a difficult job in getting the hay crop properly cured ready to stack. Much of it has lain in the swath for a week and over which of course causes much damage to the hay.

See our line of Cook Stoves and Ranges. We can sell them cheaper than peddlers or mail order houses, and besides you can see just what you are buying, and know where to find us should anything be unsatisfactory with the stove or range. Hardwick & Co., Stanton, Ky.

Much in Talk.

After all there is a good deal in talk. Let a man talk dull times and it is infectious, everybody talks dull times. Instead of rustling around to take care of what business there is, they all go sit down and mope over dull times. If a customer does happen to drop into one of these "dull times" stores he actually gets frightened out of one-half as much as he expects to buy, because things look so blue. He catches the spirit of the store and resolves to hang on to all his money with a death grip, even if his business goes to pieces on account of running short of goods to fill up the empty shelves. The bug-bear of hard times should be sat down upon. It is doing more to kill business than anything else. Tell a man he is sick, keep it up, and you will eventually hound him to death.

Mt. Sterling Primary.

Mt. Sterling is to have a new college under the management of Prof. Wm. H. Chord, formerly of the famous Hazel Green Academy. The school will be undenominational, it being started as a business venture expecting to gain patronage on the school's merit. As a business enterprise if properly managed, it will succeed.

Insane Testimony.

In giving in testimony in behalf of Harry K. Thaw to get him released from the insane prison one man testified that he thought Thaw was rational at all times but one, and that time was once when he refused to take a drink of liquor with him. Queer how some people judge sanity.

For any kind of summer wear for women, men, girls or boys see our lines. Can interest you in quality, prices and assortment.

The Way We See Things.

Auditor Frank James and others have bought the Harrodsburg Democrat and changed the name of the paper to Harrodsburg Republican.

Every man has his ideas about principle and business, so we have no censure for Lew B. Brown, the former owner of the Democrat, but no amount of reasonable consideration could secure the subscription list of the Times the whole list of which was secured in expectation of getting a Democratic sheet. It is, in our judgment a great imposition on principle and the retiring party represented for the publisher to sell a paper to the opposite party.

We might sell the name, the printing plant and all the business good will of the Times, but our dear old subscribers who have paid their money for a good Democratic paper will get just that kind or their money back. That's our principle and we think it right.

Dentistry.

Dr. S. P. Hamman, dentist will be in Clay City June 10th for practice. Anyone having teeth needing attention should call and see him in the Waldron building.

The Democrats of Mt. Sterling will hold a primary election August 18th to nominate candidates for the various city offices.

Corporation Tax.

The real effect of the Taft-Aldrich substitute for the income tax is shown by Senator Borah, of Idaho, (progressive Republican). Note Mr. Borah's words carefully, and you will understand why Aldrich thought up a way to beat the income tax:

"The Aldrich plan to tax net earnings of corporations, when compared to an income tax, is only another way to shift the burden of the tax to the consumer and producer at the bottom. If a man's income is \$50,000 and the law tells him he must pay 2 per cent on that income to the Government, there is no way for him to shift that tax. But if it is a corporation that has an income of \$50,000, and the Government comes along and puts a 2 per cent tax on those earnings, the corporation turns around and adds the tax to the price of the goods it sells, or takes enough from the wages of its men, to make up the difference. That is the situation in a nutshell."

Many friends of a genuine income tax believe that President Taft has made a very serious blunder. One Republican said:

"Mr. Taft is on record as favoring a straight-out income tax. He has said in speeches and official messages that he considered it unnecessary to amend the constitution in order to have a perfectly sound and legal income tax. And now, as soon as there is danger that an income tax might pass Congress, Mr. Taft rushes in with a message asking for a constitutional amendment, and for a corporation tax in place of an income tax. How in the world is he to reconcile his present conduct with his past declarations?"

Now up to Taft.

It will soon be up to President Taft. The tariff bill is now in the hands of the conferees of the two Houses. The bill when it left the House might be called fairly good. It had reduced many schedules and partially at least, redeemed the provisions of the Republican party.

But the bill as amended by Aldrich and his cohorts has no excuse for existence. It out-Herods Herod. The schedules have been raised in nearly every particular.

The Democrats and the Independent Senators voted against the bill in the Senate. But Aldrich had strength enough to carry it. We confess to little faith in Cannon and the House machine. The speaker promised to be good when there was danger that President Taft might antagonize him. But the representa-

tives that were appointed on the Conference Committee do not look good to the man who desires an honest revision of the tariff. They are still stand-patters of the worst kind. President Taft during the campaign promised again and again that there should be a revision downward. The bill will be presented to him soon. Unless the Conference Committee emasculates, the Senate bill, we look for a veto.—Winchester News.

No, never. We have had much confidence all the while in Taft, but he seems to us just ready to flunk, and we believe he will just as Roosevelt did when the time comes.

The Whirlwind Campaign.

From reports from all parts of the State, the Educational Whirlwind Campaign was very slimly attended and little interest taken in the meetings at most places. The State is expending large sums in many ways for educational purposes. The per capita is now \$4.00 per scholar. It used to be \$1.50 when the editor was a boy and we are sorry to say so, but the teachers were then, as a rule, in this part of the State better qualified to teach the schools, and the children then learned faster and more in three and five months terms than they do now in from six to ten months session. Something is wrong but we can't tell where the wrong is nor prescribe a remedy.

We have a number of men's suits that will close out regardless of cost. Will sell them at the following prices, for cash only. \$17.00 suits for \$11.00, \$14.00 suits for \$9.00, \$12.50 suits for \$8.00. If you can use any of them you can not afford to miss this opportunity.

The readers of this paper will be pleased to learn that their is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

JOHN DIAMOND, Sole Manufacturer, Philadelphia, U. S. A.

An Honest Janitor.

A janitor in a neighboring school threw up his job the other day. When asked what was the trouble, he said, "I'm honest and I won't stand being slurred. If I find a pencil or a handkerchief 'bout the school I hang it up. Every little while the teacher or some one that is too cowardly to face me, gives me a slur." "In what way?" asked the officer. "Why, a little while ago I saw written on the board, 'find the common multiple.' Well, I looked from cellar to garret, and I wouldn't know the thing if I met it on the street. What made me quit my job? Last night in big writin' on the blackboard, it said, 'find the greatest common divisor.' Well, I says to myself, both of them darn things are lost now, and I'll be blamed for awipin' 'em, so I'll quit."

The Value of One Vote.

One vote in the United States Senate annexed Texas to the United States. Mr. Hannegan, of Indiana, casting this vote. One vote in the Indiana Legislature elected Mr. Hannegan to a seat in the Senate. That vote was cast by Madison Marsh, of Steuben county, Indiana. Hence one vote cast by a private citizen at an Indiana election annexed Texas, led to the Mexican War, the acquisition of California, New Mexico and Utah and added hundreds of millions of gold and hundreds of millions of wealth of lands to the country. Recently one vote gave the nomination for County Judge in this county to Squire Thomas H. Collier, and one vote, cast by the Chairman of the Democratic Committee, settled the contest over the nomination.—Ex.

Woman's Friend

Nearly all women suffer at times from female ailments. Some women suffer more acutely and more constantly than others. But whether you have little pain or whether you suffer intensely, you should take Wine of Cardui and get relief.

Cardui is a safe, natural medicine, for women, prepared scientifically from harmless vegetable ingredients. It acts easily on the female organs and gives strength and tone to the whole system.

TAKE CARDUI

The Woman's Tonic

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.
